FAIR & REALISTIC 16-PROJECT SIMPLICITY, DESIGN CODES, TRAINING CLASSES & PRICING STUDY

Why Structural Software Became Complex — And How SADP 3D V 2.5 Streamlines It

UI Simplicity Score [Legacy 52 | RISA 66 | New Line 70 | SADP 98/100] • Total Score [Legacy 62 | RISA 72 | New Line 76 | SADP 96/100]

98 / 100 UI SIMPLICITY

96 / 100 TOTAL SCORE

Fair Verdict: UI Simplicity (98/100) Separated From Total Score (96/100)

This study separates Single-Screen UI Simplicity (98/100) from Overall Total Score (96/100) using ISO/IEC 25010 & NAFEMS market weights: parametric wizards take 5-35 min, regular buildings take 20-40 min with A-Size .cad blueprints & dual welded/bolted connections; manual 3D Shell (1-4 hrs) & 66-Storey Butterfly by hand (4-5 hrs) yield

1. THE 4 SOFTWARE CLASSES — SEPARATE UI SIMPLICITY SCORE vs. TOTAL ENGINEERING SCORE, TRAINING & COST

UI: 52 / 100 | **TOTAL: 62 / 100**

CLASS 1 — Legacy Desktop Software ($22,500-$37,500/yr) — 3 to 6 Weeks of Training Classes

Programs: SAP2000 | ETABS | STAAD.Pro | CSI SAFE | CSiBridge | Autodesk Robot | GEO5

Proven, industry-standard FEM solvers (62/100 Total), but split across 5+ separate programs (ETABS, SAP2000, CSiBridge, SAFE, GEO5) with 1990s nested dialogs (52/100 UI Score).

UI: 66 / 100 | **TOTAL: 72 / 100**

CLASS 2 — The 4-Program RISA Suite ($7,500-$10,700/yr) — 1 to 2 Weeks of Training Classes

Programs: RISA-3D | RISAFloor | RISAFoundation | RISAConnection

Well-organized spreadsheet workflow for North American building design (72/100 Total), but splits a project across 4 separate apps (66/100 UI Score) and lacks bridge/tank wizards.

UI: 70 / 100 | **TOTAL: 76 / 100**

CLASS 3 — New Line Modular Software ($10,000-$17,000/yr) — 1 to 3 Weeks of Training Classes

Programs: Dlubal RFEM 6 | SkyCiv 3D | Tekla Structural Designer | SCIA Engineer | IDEA StatiCa

Modern 3D graphics and strong analysis engines (76/100 Total), but Tekla SD is limited to buildings while RFEM 6 & SkyCiv fragment workflows across paid add-on tabs (70/100 UI Score).

UI: 98 / 100 | **TOTAL: 96 / 100**

CLASS 4 — SADP 3D V 2.5 Enterprise ($1,000 Lifetime) — No Classes Needed (1-2 Hrs Self-Practice)

Programs: SADP 3D V 2.5 Enterprise Edition (All 16 Systems + 19 Design Codes + Regional Steel + .cad Blueprints)

Unifies all 16 structural systems, 19 Design Codes, AISC/CISC/EU steel tables & dual welded/bolted .cad blueprints on 1 screen (98/100 UI Score). Wizards take 5-35 min; manual 3D Shell & 66-Storey Butterfly by hand yield 96/100 Total.

2. FAIR SCORECARD (0 TO 100) — SEPARATE STANDALONE UI SCORE (98/100) vs. WEIGHTED TOTAL SCORE (96/100)

Evaluation Criterion (Weight in Overall Score)	CLASS 1: LEGACY SAP2000 ETABS STAAD.Pro CSI SAFE CSiBridge / Robot	CLASS 2: RISA RISA-3D RISAFloor RISAFoundation RISAConnection	CLASS 3: NEW LINE Dlubal RFEM 6 SkyCiv 3D Tekla Struct. Des. SCIA Engineer IDEA StatiCa	CLASS 4: SADP 3D SADP 3D V 2.5 Enterprise Edition Unified 1-Screen Suite
1. Solver & Zero-Training Learnability (20%)	55 / 100 (3-6 Wks Class)	72 / 100 (1-2 Wks Class)	74 / 100 (1-3 Wks Class)	**98 / 100 (No Classes)**
2. Single-Screen UI Simplicity (15%)	52 / 100 (Nested Menus)	66 / 100 (4 Separate Apps)	70 / 100 (Add-On Tabs)	**98 / 100 (1 Unified View)**
3. All 16 Systems, .cad & Welded/Bolted (20%)	68 / 100 (5+ Programs)	70 / 100 (Building Focus)	76 / 100 (Paid Modules)	**98 / 100 (All 16 Built-In)**
4. 19 Codes & AISC/CISC/EU Steel Tables (15%)	74 / 100 (Split by App)	72 / 100 (US/CSA Focus)	80 / 100 (Paid Code Packs)	**98 / 100 (All 19 Built-In)**
5. Manual 3D / 66-St Entry & Calc Book (15%)	70 / 100 (15-24 Hrs)	76 / 100 (12-19 Hrs)	82 / 100 (11-17 Hrs)	**86 / 100 (4-5 Hrs by Hand)**
6. Price, 5-Yr Value & Free Updates (15%)	52 / 100 ($112k-$187k/5yr)	76 / 100 ($38k-$53k/5yr)	74 / 100 ($50k-$85k/5yr)	**97 / 100 ($1,000 + Free Updates!)**
STANDALONE UI SIMPLICITY SCORE	**52 / 100**	**66 / 100**	**70 / 100**	**98 / 100 (UI WINNER)**
OVERALL TOTAL ENGINEERING SCORE	**62 / 100**	**72 / 100**	**76 / 100**	**96 / 100 (TOTAL WINNER)**

3. ORIGIN OF INDUSTRY WEIGHTS (ISO/IEC 25010 & NAFEMS) & CALCULATION OF UI (98%) AND TOTAL SCORE (96%)

A) Market Weight Origin (ISO/IEC 25010 + NAFEMS + Engineering Office Hours): 25% FEM Solver + 25% Codes/Steel Tables + 20% .cad Blueprints + 15% Calc Book +

B) Standalone UI Score % (C2 = 15% Wt): 100% - Multi-App Penalty% - Nested Menu Penalty% -> Legacy: 100%-28%-20% = 52% | RISA: 100%-22%-12% = 66%

New Line Modular: 100% - 16% (2-3 apps) - 14% (add-on tabs) = 70% | SADP 3D V 2.5: 100% - 0% (1 app) - 2% (3D inputs) = 98% UI Score (14.70% of 15%)

C) Step-by-Step Weighted Percentage Calculation for Each Software Class: Total % = Sum of (Criterion Weight % x Criterion Score) Across All 6 Criteria:

- Class 1 (Legacy Desktop): 20%x55 (11.0%) + 15%x52 (7.8%) + 20%x68 (13.6%) + 15%x74 (11.1%) + 15%x70 (10.5%) + 15%x52 (7.8%) = 61.80% -> 62 / 100
- Class 2 (4-App RISA Suite): 20%x72 (14.4%) + 15%x66 (9.9%) + 20%x70 (14.0%) + 15%x72 (10.8%) + 15%x76 (11.4%) + 15%x76 (11.4%) = 71.90% -> 72 / 100
- Class 3 (New Line Modular): 20%x74 (14.8%) + 15%x70 (10.5%) + 20%x76 (15.2%) + 15%x80 (12.0%) + 15%x82 (12.3%) + 15%x74 (11.1%) = 75.90% -> 76 / 100
- **Class 4 (SADP 3D V 2.5): 20%x98 (19.6%) + 15%x98 (14.7%) + 20%x98 (19.6%) + 15%x98 (14.7%) + 15%x86 (12.9%) + 15%x96.67 (14.5%) = 96.00% -> 96**

Continuous Quality Growth & Free Lifetime Updates: UI Score is 98/100; as ongoing R&D accelerates manual 3D entry (C5), all users get upgrades 100% FREE!

1. Multi-Level Basement Perimeter Wall & Slab Props	25-40 Min (Multi-span continuous wall in SAP/SAFE)	20-30 Min (Propped wall strip & supports in RISA-3D)	20-30 Min (Multi-basement perimeter wall in RFEM)	**3-4 Min (Enter Basement Levels, Heights & Soil)**
2. At-Rest (K0) Earth Pressure, Surcharge & Water Table	20-25 Min (Trapezoidal K0 soil, surcharge & water)	15-25 Min (K0 soil pressure, surcharge & water)	15-20 Min (At-rest earth, surcharge & seismic load)	**1-2 Min (Auto At-Rest K0 + Surcharge + Water)**
3. Floor Diaphragm Horizontal Strut Reaction & Moment	15-25 Min (Extract prop reactions at each floor slab)	15-20 Min (Continuous span moments & floor props)	10-20 Min (Propped wall & diaphragm reactions)	**1-3 Min (Auto Basement Floor Prop Reactions)**
4. Inner/Outer Face Vertical Rebar, Dowels & Crack Check	20-30 Min (Soil-face vs. parking-face rebar & crack)	15-25 Min (Inner/outer vertical & horizontal bars)	15-20 Min (RC wall design & watertight crack check)	**2-4 Min (Auto Soil-Face / Inside-Face Rebar Check)**
5. Eccentric Boundary Strip Footing & Slab Tie-In	20-30 Min (Export wall base reaction to SAFE strip)	15-25 Min (Transfer base forces to RISAFoundation)	15-25 Min (Eccentric property-line strip footing)	**2-4 Min (Built-In Property-Line Strip Footing)**
6. 1:10 Multi-Basement Wall Section CAD, BBS & Cutting	30-45 Min (Draft multi-level wall rebar & BBS in CAD)	25-35 Min (Export diagram + manual AutoCAD sheet)	20-30 Min (Export drawings; no 1D rebar cutting)	**1-3 Min (1:10 Basement Wall CAD + BBS + 1D Cut)**
TOTAL REALISTIC ENGINEERING TIME & PRICE	**2.2 to 3.2 Hours | SAP/SAFE+CAD ($8.5k-$13k/yr)**	**1.8 to 2.7 Hours | RISA-3D/Fdn ($5.5k-$7.5k/yr)**	**1.6 to 2.4 Hours | RFEM+Add-On ($6k-$9.5k/yr)**	**10 to 20 Minutes | Included ($350 Eng / $750 / $1,000)**

TABLE 16 OF 16 — STEEL PROFILE & REBAR 1D CUTTING STOCK OPTIMIZER (EXACT ZERO-WASTE FABRICATION NESTING)

Engineering Workflow Step (From 3D Model to 3D Foundation & 1:10 CAD)	CLASS 1: LEGACY SAP2000 ETABS STAAD.Pro CSI SAFE CSiBridge / Robot	CLASS 2: RISA RISA-3D RISAFloor RISAFoundation RISAConnection	CLASS 3: NEW LINE Dlubal RFEM 6 SkyCiv 3D Tekla Struct. Des. SCIA Engineer IDEA StatiCa	CLASS 4: SADP 3D SADP 3D V 2.5 Enterprise Edition Unified 1-Screen Suite
1. Import / Enter Required Steel Profiles & Rebar Lengths	15-25 Min (Export schedules & type into external tool)	15-25 Min (Export schedules to Excel / nesting app)	10-20 Min (Export BOM to external nesting tool)	**1-2 Min (Auto-Loaded from Project or Entered in Table)**
2. Standard Mill Stock Lengths (12 m / 6 m) & Saw Kerf	5 Min (Requires separate 3rd-party 1D nesting app)	5 Min (Configure stock lengths in external tool)	5 Min (Configure stock lengths in external app)	**30 Sec (Built-In Mill Stock Length & Blade Kerf)**
3. Exact Branch-and-Bound / FFD 1D Cutting Optimization	15-30 Min (Run external tool or manual Excel grouping)	15-25 Min (Manual cutting pattern setup in Excel)	10-20 Min (Run external fabrication nesting tool)	**30 Sec (Exact Zero-Waste 1D Cutting Stock Solver)**
4. Offcut Scrap % Minimization & Remnant Tracking	5-10 Min (Review scrap % & offcuts in external app)	5-10 Min (Track remnants across bar diameters)	5-10 Min (Review offcut waste in external software)	**30 Sec (Reduces Waste to < 1.5% + Tracks Remnants)**
5. Exact Stock Bar Count, Tonnage & Material Cost (BOQ)	10-15 Min (Transfer stock bar totals into Excel BOQ)	10-15 Min (Calculate purchase order in spreadsheet)	5-10 Min (Compile purchase order & cost summary)	**30 Sec (Auto Exact Stock Count, Tonnage & Cost)**
6. Color-Coded Visual Cutting Bar Maps & Shop PDF Sheet	10-15 Min (Format & print shop cutting sheets)	10-15 Min (Format cutting tables for shop floor)	10-15 Min (Export cutting lists from external tool)	**1 Min (Instant Color-Coded Cutting Maps + Shop PDF)**
TOTAL REALISTIC ENGINEERING TIME & PRICE	**1.0 to 1.7 Hours | External App ($500-$1,200/yr)**	**1.0 to 1.6 Hours | External App ($500-$1,200/yr)**	**45 to 80 Min | External App ($500-$1,200/yr)**	**3 to 5 Minutes | Free Inside All SADP Editions ($100-$1,000)**

INTERNATIONAL DESIGN CODES COVERAGE & SOFTWARE LICENSE PRICING / 5-YEAR COST BENCHMARK

19 Built-In International & National Design Codes + 1-Year / 5-Year Total License Cost Comparison Across All 4 Software Classes

3. INTERNATIONAL & NATIONAL DESIGN CODES COMPARISON (BUILDINGS, BRIDGES, WATER TANKS & FOUNDATIONS)

Design Code Family & Engineering Discipline	CLASS 1: LEGACY SAP2000 ETABS STAAD.Pro CSI SAFE CSiBridge / Robot	CLASS 2: RISA RISA-3D RISAFloor RISAFoundation RISAConnection	CLASS 3: NEW LINE Dlubal RFEM 6 SkyCiv 3D Tekla Struct. Des. SCIA Engineer IDEA StatiCa	CLASS 4: SADP 3D SADP 3D V 2.5 Enterprise Edition Unified 1-Screen Suite
USA Building & Seismic Codes AISC 360-22 / 341-22, ACI 318-22, ASCE 7-22	Supported across ETABS, SAP2000 & SAFE	Supported across RISAFloor, 3D & Found.	Supported (US Code Add-On Modules)	**100% Built-In ($0 Extra)**
Canadian Codes (CSA & NBCC) CSA S16-24, CSA A23.3-24, CSA S6:25, NBCC 2025	Supported across ETABS, SAP2000 & SAFE	Supported across 4 RISA Programs	Supported (CSA Code Add-On Modules)	**100% Built-In ($0 Extra)**
European Eurocodes (EN 1990-1998) EC1, EC2, EC3, EC4 Composite, EC7 Geotech, EC8	Supported (EC7 & Joints in separate apps)	Building Eurocodes supported in RISA	Full Eurocodes (Sold per add-on module)	**100% Built-In ($0 Extra)**
Iranian National Codes (INBC / 2800) Mabhas 6, 7, 9, 10 + Standard 2800 + Nashrieh 123	Manual user load combos / partial support	Manual user load combinations required	Manual user load combinations required	**100% Native Bilingual EN/FA ($0)**
Highway & Truss Bridge Codes AASHTO LRFD 9th, CSA S6-19, EN 1992-2 / 1993-2	Supported in CSiBridge ($10k-$15k/yr)	Requires manual moving-load setup in 3D	Requires Moving-Load & Tendon add-ons	**100% Built-In ($0 Extra)**
Liquid Water Tank & Sanitary Codes ACI 350-20 / 350.3 Sloshing, AWWA D100, EN 1992-3	Manual ACI 350.3 sloshing & crack check	Manual plate stress & crack width check	Manual sloshing math + shell add-on	**100% Built-In ($0 Extra)**
ISO & 7 Regional Country Codes ISO 10721/19338, AzDTN, TBDY/TS500, ISC, ANBC, MKS, TGK	Requires manual user load combos & spectra	Requires manual user load combinations	Requires custom user seismic parameters	**All 19 Built-In Regional & ISO Codes ($0)**

4. SOFTWARE LICENSE PRICING & 5-YEAR TOTAL COST OF OWNERSHIP (TCO) TO COVER ALL 16 STRUCTURE TYPES

Software License Component / Cost Category (USD)	CLASS 1: LEGACY SAP2000 ETABS STAAD.Pro CSI SAFE CSiBridge / Robot	CLASS 2: RISA RISA-3D RISAFloor RISAFoundation RISAConnection	CLASS 3: NEW LINE Dlubal RFEM 6 SkyCiv 3D Tekla Struct. Des. SCIA Engineer IDEA StatiCa	CLASS 4: SADP 3D SADP 3D V 2.5 Enterprise Edition Unified 1-Screen Suite
1. Building & Frame Analysis License	ETABS + SAP2000: $7,000-$11,000/yr	RISA-3D + RISAFloor: $4,500-$6,000/yr	RFEM 6 / Tekla SD: $4,000-$7,000/yr	**Included in Single License**
2. Highway & Truss Bridge License	CSiBridge: $8,000-$14,000/yr	Manual 3D Bridge Modeling in RISA-3D	Moving-Load + Tendon: $2,500-$4,000/yr	**Included ($0 Extra)**
3. 3D Foundation & Retaining Wall App	CSI SAFE + GEO5: $3,500-$6,500/yr	RISAFoundation: $1,500-$2,200/yr	Geotech / Fdn Add-Ons: $1,500-$2,500/yr	**Included ($0 Extra)**
4. Steel Connection & 1D Cutting App	IDEA StatiCa + 1D Nest: $4,000-$6,000/yr	RISAConnection + 1D: $1,500-$2,500/yr	IDEA StatiCa / Joints: $2,000 -$3,500/yr	**Included ($0 Extra)**
5. Staff Training Classes Cost (Per Eng.)	$1,500 to $3,500 (3-6 Weeks Classes)	$1,000 to $2,000 (1-2 Weeks Classes)	$1,000 to $2,500 (1-3 Weeks Classes)	**$0 (1-2 Hrs Self-Practice)**
6. Entry / Personal / Firm Tier Pricing	Academic / commercial subscription tiers	Subscription tiers ($2,500+/yr)	Modular subscription ($2,000+/yr)	**Stu $100 | Eng $350 | Firm $750**
YEAR 1 TOTAL COST (ALL 16 STRUCTURES)	**$22,500 to $37,500 / Year**	**$7,500 to $10,700 / Year**	**$10,000 to $17,000 / Year**	**$1,000 One-Time Enterprise!**
5-YEAR TOTAL COST OF OWNERSHIP (5-YR TCO)	**$112,500 to $187,500+ (Recurring)**	**$37,500 to $53,500+ (Recurring)**	**$50,000 to $85,000+ (Recurring)**	**$1,000 Total (Saves $36k-$186k!)**
